Thank you that worked. We really appreciate that.

Best,

Chris

Hi everyone, our PM consultant has put the files on an ftp site that hopefully you all can access (thanks again, Garnet!). Here's the login for that:

Ex. 6 Personal Privacy (PP)

If you have issues with the ftp site, I have copied Garnet from SonomaTech on this email. I believe you met her at our last coordination meeting on this project when we discussed the Work Plans.

Thanks, everyone!

Vanessa

Hi Vanessa,

I hope you are doing well. I wanted to touch base on the files you've shared for review. First, thank you so much for that.

Because of our security settings we do not have third party cookies enabled and thus cannot download from google drive. I was able to preview the two word documents, and in that mode I was able to save them. I was not able to save the pdf, but was able to "print" the pdf to another save-able pdf file.

However, I am unable to download the MOVES files. I'm not sure if there is a good solution to this issue, but I wanted to alert you as early as possible.

Thanks again and hope the day is great,

Chris

Subject: I-270 Air Quality Tech Reports for Review

Hi EPA!

I'm sending along the I-270 air quality reports for your review. There's a PM tech report and an additional tech report with the rest of the air quality information. The PM tech report is a first draft, so please keep that in mind as you review it. The other tech report has been reviewed by CDOT and FHWA.

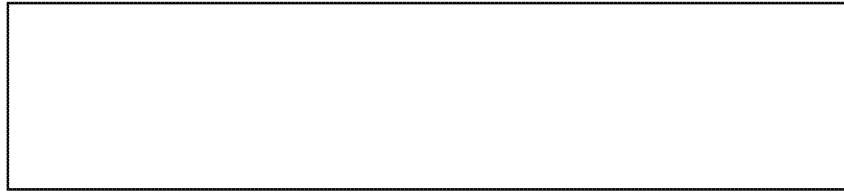

Ex. 6 Personal Privacy (PP)

Please "reply all" with your comments by COB Tuesday, August 30th, that would be appreciated. I will be taking a medical leave of absence starting next Tuesday, so it's important to reply all with your comments.

Thanks so much and feel free to reach out to this group if you have any questions!

Vanessa
